

# T.O.P.-Elektronik

## Sale of First-Class Used Measuring Instruments

1A Cal GmbH acquires T.O.P. Elektronik to offer the supply and maintenance of high-quality test equipment to their clients worldwide. High-end measuring devices are extremely durable and reliable, so they can be used for many years and save you money. By repairing high-end measuring devices, we at 1A CAL understand their weak points and only supply you with reliable products in first-class condition. All used units go through a full refurbishment process at our lab in Germany, ensuring you receive only the very best quality device. Extend your hidden capabilities now and turn them into cash with our good condition branded used devices at fair prices.
